

Project Design Phase-I

Proposed Solution

TEAM ID: PNT2022TMID38325

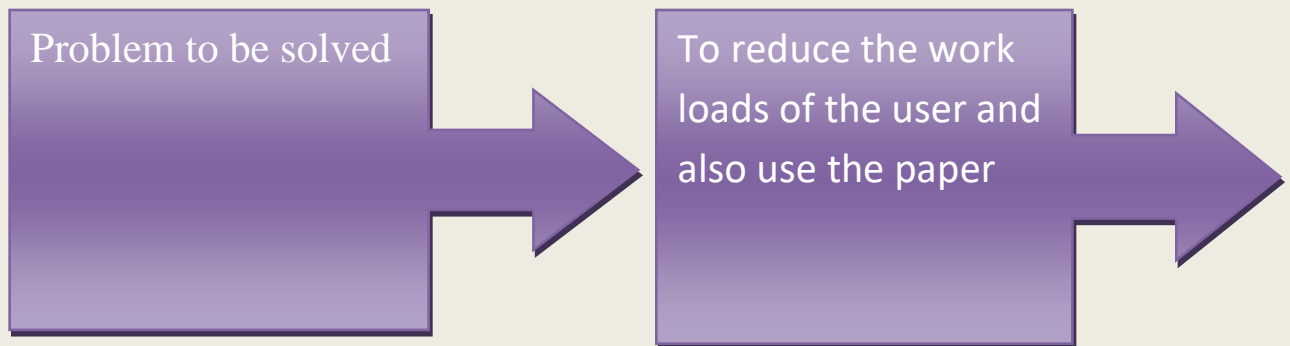

Date	19 October 2022
Project name	Smart Railway Solutions
Maximum marks	2 marks

Proposed Solution Template:

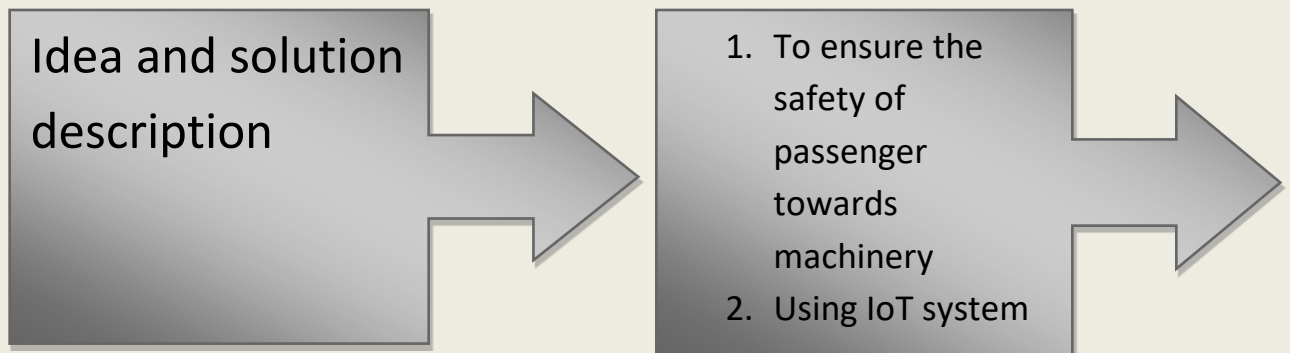

Parameter

Description

1.

2.

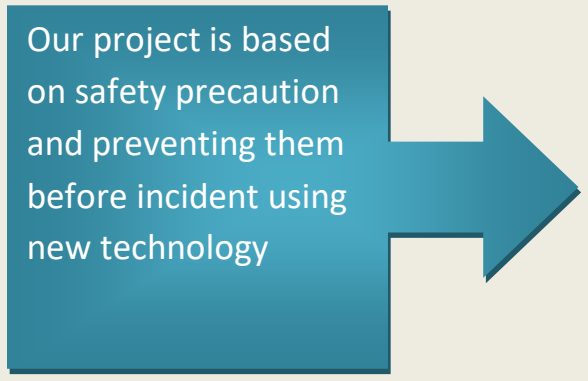

3.

Novelty/
Uniqueness

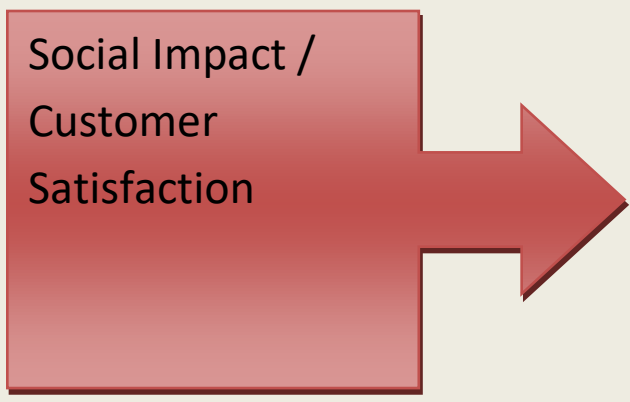

Our project is based
on safety precaution
and preventing them
before incident using
new technology

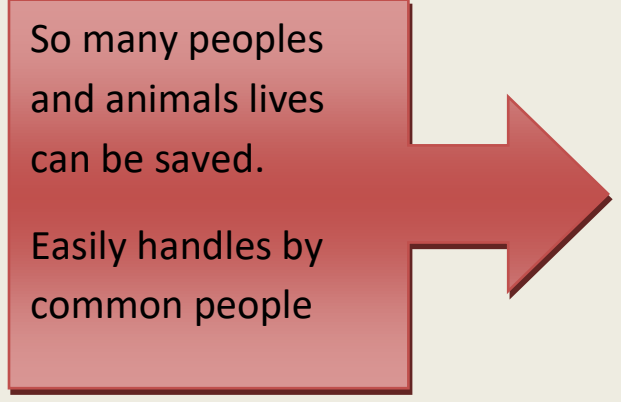

4.

Social Impact /
Customer
Satisfaction

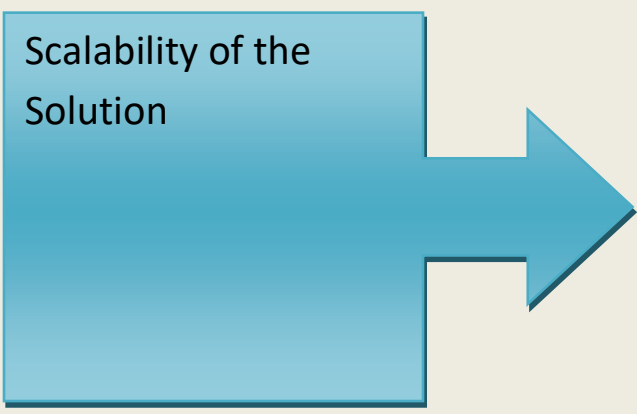

So many peoples
and animals lives
can be saved.

Easily handles by
common people

5.

Scalability of the
Solution

This will take the
technology level to the
next stage and will
reduce the
hypertension of
passengers during
traveling
